1. Discussion around beginning to report quarterly outcomes from the HARA in this meeting as was done in the past.
2. Check-In Review - MSHDA Pay for Performance Outcome Measures (M1-M6)
  - a. Exit Destination Outcomes (Positive Destinations)
    - i. Agencies were asked to review the MSHDA Pay for Performance report sent out in June and update any exit destinations where possible.
    - ii. Group compared the current (July) report with the one run in June to assess progress.
      1. Measure 3 went up to 90%.
      2. Measure 4 went down to 66%.
    - iii. As agencies continue to review and clean, we will do a more "final" review together again in September with the hope of seeing all measures at 90% or greater.
    - iv. Group discussed definition of temporary/permanent:
      1. If client's answer has a finite time period = temporary.
      2. If client's answer has open ended time period = permanent.
    - v. Discussion around how to handle cases where the client is entered into a different program due to funding ending in previous program, and if it's possible to fix the records in HMIS by leaving the PP open until housed with the other program, then exit to housed with RRH, or enter explanations. Audrey will follow-up with MCAH for guidance.
3. NOFO Data Quality/Data Cleaning Prep
  - a. Group reviewed NOFO Prep Tasks document (attached).
