

## **Affordable Housing Guiding Principles**

### **1. Promote Community Integration:**

- Full access to community resources enjoyed and needed by all residents
- Diversity-maintain a “neighboring” community
- Allow individuals/families with special needs to live by others that have a different life experience and vice versa

### **2. Access to Supports:**

- Needed supports are not linked to housing but assured to available and accessible

### **3. Mixed Income Development:**

- Economic diversity, balance in neighboring communities and within the proposed project

### **4. De-concentration of Poverty:**

- Expand areas of affordable housing with special needs units
- Not only having projects places in low-income areas
